Principal’s Report

National Consistent Collection of Data, School Students with Disabilities

All families in our school will be sent information regarding this matter. We have also included the information in this newsletter. This information is sought by the Federal Government from all schools (Public, Independent & Catholic). Their purpose is to determine, how many students across the nation require adjustments to allow them to access education at the same level as a person without a disability. To be included in the data collection students do not require a formal diagnosis from a doctor for conditions such as Autism, Asperger’s Syndrome, Dyslexia, anxiety disorders and visual or hearing loss. Teachers use their professional judgement to determine whether a student requires an adjustment to meet their learning needs. When a teacher recommends these adjustments they are minuted at learning support team meetings to ensure our records clearly reflect any adjustments being made, including monitoring time frames. For students to be included in the data collection the school must have evidence that consultation has occurred with parents. If you have not been involved in such consultation it is unlikely that your child would form part of the data collection. The information that will be provided to the Federal Government by the states does not identify individual students enrolled at Rouse Hill Public School.

If you do not wish for the school to include your child in the data collection process please complete the form and return it to the school office. We have also included the form in this newsletter. If you have any further questions regarding this data collection please contact Mrs Movia via the school office on 8824 7330.
Cross Country
Congratulations to the numerous students who participated in the Zone Cross Country on Friday, 23rd May. The carnival was another wonderful success for Rouse Hill Public School and demonstrates the depth of the athletic ability of our students. Good luck to the students who are going on to represent Ridges PSSA at the Sydney West Cross Country Carnival next week. I would also like to publicly thank the staff, parents and students from Rouse Hill Public School who worked so hard to make this carnival the success it was.

Walkathon
Just a reminder that our walkathon is being held on Tuesday, 17th June, which will be the first day back to school in Week 7 as the Monday is the Queen’s Birthday Public holiday.

Bike Safety Day
Thank you to Blackman Bicycles and the Jet Black Mountain Bike Team who made our bike safety day such a success. It was wonderful to see the team from Blackman Bicycles and Jet Black assisting our students and providing valuable bike maintenance and safety instructions. Thank you also to Miss Torta and Mr Michael Brown who assisted with the organisation of the day.

Football
Congratulations to Miss Hall and our two rugby league teams who last week participated in the All Schools North Rugby League Competition. The event had 700 students from over 20 schools playing in two competitions, senior and under ten year olds. Both of our teams made it to the grand final and the under tens were victorious in their game. They will now play against the winner of the All Schools South competition next Thursday. Well done boys and thank you to Miss Hall and all of the parents who helped out on the day.

Sydney West Dance
Good luck to our senior dancers as they participate in the Sydney West Dance Festival this week. I attended the concert last night and was thrilled to see such a professional performance. Congratulations to our senior dancers.

Kind Regards
David Jenkins
Principal

Our students who competed in the All Schools North Rugby League Competition
**School Banking**

We wish to thank Barbara, our Commonwealth Bank School Banking Specialist, for attending our school on Monday, 12th May to help some of our students open accounts to start their school banking.

With the new School Banking online reward system up and running, we would like to inform our school bankers that we no longer have a surplus stock of rewards. We now have to individually order rewards for each student which could take a week or two to receive. The current rewards on offer are handballs, scented pencils, penguins or shark key rings and whale shark pencil cases.

We would also like to thank all our school bankers. You have raised for the school a total of $1068.21 for 2013 and for Term 1 a total of $279.58 was raised. Well Done!

In Term 1 the Commonwealth Bank ran a competition for schools in our area and the prize was a marquee for the winning schools. The following schools are the lucky winners: Westmead Public School, Barnier Public School, John Palmer Public School and Our Lady of the Angels Primary School.

Well done again and happy saving!

Your school banking coordinators
Jenny and Jo

**Year 6 Farewell Fundraising News**

On Friday, 23rd May the Year 6 students and their families ran the canteen and barbeque facilities at the Ridges Cross Country carnival as a fundraiser for the Year 6 Farewell. We would like to thank the following families for their support: Gullick, Howell, Anderson, Thompson, McMurray, Bryant, Van Niekerk, Vallejo, Clark, Tighe and Douglas. We raised over $1,000 for the day.

**Online Payments**

There are an increasing number of P&C payments being paid online via the school’s website instead of via Flexischools. **Please note that only school related payments can be made via the school’s website. When paying for P&C related items make sure you pay via Flexischools.** Generally the note that your child brings home will state the correct website to go to when making the online payment. If you are unsure please telephone the school office before making the payment.

Nationally Consistent Collection of Data
School Students with Disability

Information for Parents/Carers

Schools across Australia are taking part in a new national data collection on school students with disability.

The data collection is being introduced in stages over three years, and started in 2015. From 2015, this information will be collected in every school across Australia, every year.

All Australian governments have agreed to this.

WHAT IS THE BENEFIT FOR MY CHILD?

All Australian governments agree that every child in an Australian school should have a high quality education. It shouldn’t matter what the individual child’s circumstances are — every child should have the same opportunity to succeed at school.

The aim of this new data collection is to have better information about school students with disability in Australia.

Better information about school students with disability will help teachers, principals and education authorities to support students with disability to take part in school on the same basis as students without disability.

WHY IS THIS DATA BEING COLLECTED?

There is nothing new about schools collecting information about students with disability — in fact, schools have had to do this by law for some time. But the type of information currently collected varies between each state and territory.

With the new data collection, every school in Australia will use the same method to collect this information — that is, a government school in suburban Sydney will collect and report data in the same way as a Catholic school in country Victoria and an independent school in the Northern Territory.

The information provided through this new national data collection will enable all Australian governments to better target support and resources to benefit students with disability. It will help to put the right supports in place for students with disability so that they have the same opportunities for a high quality education as students without a disability.

WHAT ARE SCHOOLS REQUIRED TO DO?

Every school in Australia is likely to have a student with disability at some point. Schools need to be able to support students with disability by removing any obstacles for them to participate in their education.

By law, schools are required to make reasonable adjustments where needed to assist students with disability. These responsibilities are outlined in the Disability Discrimination Act 1992 and the Disability Standards for Education 2005. This means that schools need to talk to the student and/or their parent/carer about reasonable adjustments. These are things the schools do now and this won’t change.

The new data collection will record students who have been identified by a school team as meeting the definition of disability under the Disability Discrimination Act 1992 and provided with an adjustment.

WHAT IS AN ADJUSTMENT?

An adjustment is a measure or action taken to help a student with disability participate in education on the same basis as other students. Adjustments can be made across the whole school setting (like ramps into classrooms), in the classroom and at an individual student level (like extra tuition for a student with a learning difficulty).
WHAT INFORMATION WILL BE COLLECTED?
Your child’s school will collect and report information every year about:

- the level of adjustment provided
- the number of students who receive each level of adjustment
- where known, the student’s broad type of disability.

Some students who are not provided with an adjustment at the time of the collection will meet the definition of disability under the Disability Discrimination Act 1992 and will be eligible to be included in the data collection.

WHO WILL COLLECT MY CHILD’S INFORMATION?
Teachers and other school staff from your child’s school will collect the above information based on:

- consultation with parents/carers
- the school team’s observations and professional judgements
- any medical diagnosis
- other relevant information.

School principals are responsible for making sure that the information collected about each student is accurate.

HOW WILL MY CHILD’S PRIVACY BE PROTECTED?
Protecting the privacy and confidentiality of all children and their families is very important. With the new data collection, this will be done in the following ways:

- Personal or confidential information will not be given to anyone not authorised to see it.
- When the information is sent by your child’s school to the local or federal education authority for combination with information from other schools, it will be by school only – student names will not be recorded as part of the data collection.
- When the information is reported from 2016 onwards, it will be by school only – student names will not be recorded as part of the data collection.

WHEN AND WHERE WILL THE DATA BE AVAILABLE?
When all Australian schools are taking part in the new data collection, the information will be reported on the My School website from 2016 onwards. It will be by school only – no student names are recorded as part of the data collection.

CAN I DECIDE WHETHER MY CHILD’S INFORMATION IS INCLUDED IN THE NATIONAL DATA COLLECTION?
It’s your decision about whether you want your child’s information to be included in the national reporting or not.

Including every school child who is being provided with an adjustment because of disability in this new national data collection each year will help schools, education authorities and governments to better meet students’ needs.

Your school will tell you what you need to do if you don’t want to have your child’s information included in the national data collection.

Even if your child’s information is not included in the national data collection, your school is still required to provide support to your child with disability and any adjustments that may be needed to help him/her participate at school.

FURTHER INFORMATION
Contact your child’s school if you have further questions about the Nationally Consistent Collection of Data on School Students with Disability and how it may affect your child.

You can also visit www.education.qld.gov.au/nationally-consistent-collection-data-school-students-disability

National Parents/Carers Fact Sheet Version No. 2 as at 27 February 2014
If you do not want your child to be counted in the data collection, please complete this form and return it to the school before the end of Term 2, 2014.
